

Maxi | Quartz

QAC-based Disinfectant

Description

Liveco[™] Maxi Quartz is a water-based quaternary ammonium sanitiser specially formulated for use on food contact hard surfaces. This blend of QACs has a wide range of antimicrobial efficacy to be used in food processing facilities.

Key properties

Concentrated formulation to sanitise food contact hard surfaces.

Application

Concentrated formulation to be diluted to different concentration for specific application. Safe to use for food contact hard surfaces when following application of use. Below are guidance and actual concentration depends on specific application and required antimicrobial activities.

For Disinfection

1. Clean and rinse surfaces to soften and removal of soil before disinfection.
2. Dilute Quartz (4mL/L) to 300ppm active and sanitise surface.
3. Keep surface wetted for at least 10 mins before rinsing with clean water.

Features & Benefits

- Suitable for food-related application.
- Cost-effective disinfectant.
- Free from colourant and fragrances.
- Special formula has a wide range of antimicrobial efficacy.
- Useful for a wide variety of application including, food preparation surfaces, equipment, hard floors and fogging.

Floor Fogging

1. Remove all raw materials, food product and packaging materials from the room or protect them with a cover.
2. Dilute Quartz (10mL/L) to 800ppm active and start fogging with a compatible machine.
3. Rinse surfaces with clean water.

QAC-based Disinfectant

Technical Data

Appearance : Clear Liquid
pH value : 6.5 to 9

Safe handling & storage condition

Keep container tightly closed and properly labelled in a well-ventilated place. For safety and first aid information, please refer to Safety Data Sheet (SDS).

Shelf Life

3 years from date of manufacture.

Product	Pack Size	Bottle Type	Product Code	Quantity in Package
Liveco™ Maxi Quartz	5 L	Plastic pail	LVCM010-5P	4 pcs / ctn
Liveco™ Maxi Quartz	20 L	Plastic pail	LVCM010-20P	1 pcs / ctn
